

OLIVIER GILQUIN

Software Engineer

Experience

.NET Developer (Intern)

In The Pocket
Feb 2024 - May 2024

Developed an innovative internal tool designed to enhance timesheet management for consultants, significantly optimizing efficiency and saving considerable time.

Full-stack Developer (Student)

Info Support
Jul 2023

I had the amazing opportunity to work with Info Support as part of a talented student team. Our challenge was to develop a new, user-friendly app for managing a therapist database. The new app has been a game-changer, offering considerable timesavings for PUNT. vzw. It's gratifying to see our work facilitate faster and more effective matches between therapists and clients.

Supper Engineer (Student)

Combelle
Mar 2021 - Feb 2024

Providing technical support for Combelle products, offering solutions via phone and email. Emphasizing customer satisfaction by effectively handling inquiries and resolving issues with a focus on clear, positive communication.
